

Electronic Land Registration Soon to Replace Paper in Victoria

Effective **Monday March 22, 2010** it will be required that the majority of land registrations in the Victoria Land Registry Office be submitted electronically.

The Victoria legal community initially gained access to the electronic land registration system on October 24, 2005, when electronic land registration became available on an optional basis.

Due to client response, the information session on the new electronic registration service has been cancelled in this office.
