52M	Land Titles Subdivision Plans	Nov 16, 2005	Current	1	Current
Notes:	<p>a) One RCP was found; RP324. This is the only RCP in the LRO per query to staff.</p> <p>b) Circa 1957, the only type of plans entered in the Registered Plan series of numbers were Plans of Subdivision. Other types of registered plans were given a number in the document series. Copy of these plans in the document series are found in the "Oversized Documents" cabinets or in the "Rolled Plans" cabinets.</p>				
Footnotes:	<p>1. The Registered plans for the office are all contained in one numbering series. However the actuals plans have been filed in four separate locations depending on a number of factors. The plans of subdivision are in a separate filing location, with the Condominiums and Reference plans. The apparent gaps in this file represent other registered plans, which are found in three locations; those that are "document" size are either in a draw labelled "Highway Plans" or at the start of the "Oversized Document" cabinets; larger sized registered plans can only be found in the "Rolled Plans" cabinets. The following RP's could not be found in the LRO; 1, 3, 4, 30, 32, 78, 81. RP 6 could not be found, however a RP6A was found; they are one the same. The "A" appears to have been added at some time in the past, after the initial registration. Accept and use the plan as 6A.</p> <p>2. The reference plan series has an overlap. The use of the 52R prefix was began Jan. 1, 1971. However the following plans were deposited by MTO after this date and the "52" was not used in the registration number; 79, 80, 83, 84, 100, 101, 102, 103, 104, 115 and 119. These plans will need to be coded as simply "R"-number. There is no duplicate of plans due to the use of R and 52R.</p>
