## SCHEDULE

## MONTHLY PAYMENT PROVISIONS

The principal amount of \$ $\qquad$ is payable on the Mortgagee's demand, and until paid, interest is calculated monthly thereon at the Mortgagee's Mortgage Loan Rate in effect from time to time (currently $\qquad$ \% per annum calculated monthly, which is equivalent to $\qquad$ \% per annum calculated half-yearly, not in advance) before and after demand, default and judgment. Interest on the principal amount after paid on the $\qquad$ day of the following month, and thereafter principal plus interest of \$ $\qquad$ shall be paid monthly on the $\qquad$ day of each month commencing on $\qquad$ _, (with payments applied firstly to interest and balance to principal). Since an increase in the Mortgage Loan Rate increases the interest portion and decreases the principal portion of monthly payments, then the Mortgagee may require the monthly payments to be increased as the Mortgage Loan Rate increases so as to ensure full principal repayment in accordance with the Mortgagee's requisite loan amortization period.

## ADDITIONAL PROVISIONS

When not in default, the Mortgagor may: (i) increase the monthly principal payment amount in increments of $\$ 5.00$ on any monthly payment date; (ii) prepay all of the unpaid balance of principal and interest at any time without notice or bonus; and (iii) prepay part of the unpaid balance of principal and interest in increments of $\$ 100.00$ on any monthly payment date.

If the Mortgagor sells or conveys the property, then thereupon this Mortgage shall become immediately due \& payable. If the Mortgagor requires this Mortgage to be assigned or transferred to any third party, then the Mortgagor shall thereupon pay the Mortgagee a $\$ 450$ administration charge therefor.

## EQUIVALENT RATES OF INTEREST

The following information is provided to you since the current interest rate may be expected to change from time to time. For each current mortgage rate (calculated monthly not in advance) set forth, the adjacent column sets forth the equivalent interest rate calculated semiannually not in advance.
