

## Teraview on the Web Pilot is Up and Running

### What's Happening?

Teraview on the Web is in pilot and will soon be ready for Provincial roll-out. Our pilot is currently running in **Simcoe & Niagara** counties with over 10 participating firms.

### Highlights on the Pilot

**100+**

Users from over 10 participating firms

**1500+**

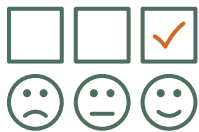

Instruments signed using RSA tokens

**1700+**

Instruments registered in the first 3 weeks of pilot

### Feedback from the Pilot Participants

According to our participants, Teraview on the Web is:

- Very user-friendly
- Visually appealing

Over 90% of participants described the experience of administering their RSA token as easy

### Pilot Participants find the following tools very useful:

#### Video Guides

Consult our [video guides](#) for an overview and instructions of key tasks.

#### Training Environment

[Try out](#) the new version of Teraview.

#### In-System Help

Use the orange help icon to open the Teraview in-system help.

"I love the new Teraview Web. Being a pilot participant has given us a voice in some of the issues that we encounter. I find it to be a much faster system and easier to navigate within the program. Thank you!"

- Conveyancer, Pilot Participant
