Teraview®

The Move to Teraview on the Web - a True Partnership

The successful migration of Teraview Users from desktop to web was
an overwhelming success, thanks to you!

YOUR EFFORTS

You transitioned from Teraview desktop to web in four months!

- You learned new technology
- You developed your online skillset
- You adapted to new, security protocols with the introduction of RSA Token authentication

OUR EFFORTS

The web version of Teraview was built to be fully compatible with the previous desktop version to ensure that your transition was seamless:

- No loss of data
- No loss of productivity
- All the benefits of a web-based system

+

A SUCCESSFUL LAUNCH

Thanks to your collaboration we successfully launched Teraview on the web to **over 18,000 end users in four months**, with no delays and no service disruptions to your business!

And... we are still working on it
The Teraview journey continues as we strive to improve your online experience

You Said It!

"Love the new look!"

"Teraview on the Web is user friendly"

"I like the new design"

"Enjoying the web version of Teraview – new features make things easier."

"The new Teraview web based platform is such an improvement over the previous program"

"The new system is great and no issues. It's faster and easier to use, and provides more info and more access points."
