

## A LOT FROM THE DOT

### Land Registration Announcement – Plan Preview

October 27, 2021

On October 30, 2021 Teranet will introduce changes to allow previewing of all plans, except for Subdivision and Condominium plans, prior to purchase in both Teraview and OnLand.

Plan preview feature will display a blurred image of the actual plan along with a watermark. Should you decide to purchase the plan, it will not be blurred or watermarked.

With approximately 1 million plans filed in the land registration system over 200 years, the amount of blurriness will vary depending on the copy of the original plan.

This new service is an additional tool to help clients determine which plan to purchase when it might be difficult to determine, based only on the Block Maps and Parcel Registers.

#### Teraview

For more information and instructions on how to use the plan preview service in Teraview please visit [Teraview.ca](http://Teraview.ca). If you have any questions regarding plan preview, please contact Teranet's Teraview customer service at [info@teraview.ca](mailto:info@teraview.ca).

#### OnLand

For more information and instructions on how to use the plan preview service in OnLand please visit [OnLand.ca](http://OnLand.ca). If you have any questions regarding plan preview, please contact Teranet's OnLand Customer Service at 1-844-9-ONLAND or 1-844-966-5263.
